

# WEB DEVELOPMENT SERVICES

WEB DEVELOPMENT DONE THE RIGHT WAY

# Web Development & Design

Web development services are the core of our business. We provide a wide range of professional services in the development of web 2.0 and intranet applications of any complexity. Our highly talented team endeavors to develop web applications that can become an invaluable asset for your company. We provide complete and comprehensive solution for all phases inclusive of design, development, deployment and maintenance. We feel that by being a full-service company, we are able to provide our clients with a complete understanding of the Web. We believe that success lies in maintaining open communication and involvement with our clients through each phase of development. We will make every attempt to understand your business and your customers. Our goal is to translate your vision into reality by being your technology partners. Business Technologies has been providing web development services since 2003 and has the ability to develop any genus of website or web application for any industry or individual

Our focus to specialize in the combination of high impact design with solid development of user-friendly and functional web applications that not only enhance your corporate image but also aim to increase sales and visitor retention has proven beneficial in attracting and maintaining an increasing list of prestigious clients. We at Business Technologies guarantee tailor-built corporate web solutions and web 2.0 applications that not only stand out from the competition, but also helps build your reputation as a leader in your industry.

- ✓ Strategy, design and development of Web 2.0 applications
- ✓ Corporate portal development.
- ✓ Mobile website development.
- ✓ Static and dynamic website development.
- ✓ Database driven website development.
- ✓ Ecommerce website development.
- ✓ Web application development.

# Custom Web Design & Development

The difference between run-of-the-mill web solution and tailor-built solutions is the WOW factor. You want a web presence that captures visitors and gets them engaged with your company moreover custom web applications can help you achieve "exactly" what you need!

Our team, at Business Technologies specializes in custom web solution development both in terms of design and development meaning that we recommend the solution that best fits your requirements rather than proposing a run-of-the-mill web solution. We thoroughly listen to our clients and try our level best to deliver as per the client's requirements and expectations. The core steps involved in the process are as following:

- ✓ Consultation
- ✓ Requirement Gathering
- ✓ Research and Analysis
- ✓ Planning
- ✓ Designing
- ✓ Innovation
- ✓ Architecture
- ✓ Implementation
- ✓ Monitoring

## Successful Track Record

We have been developing custom web designs and solutions for almost a decade now that's why we know all the aspects and necessities that need to come together to create an effective custom web solution. Last but not least, we have a proven and successful track record.

WELCOME TO JET CRICKET

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

# Web Apps

Web Applications can transform your business into a vehicle for designing strategies that drives business, better serves your customers and delivers a real return on your investment. Our team has hands-on experience in developing advanced web applications for the clients with complex business logic catering to humungous volumes to data.

The core steps that are involved in the process of application development include:

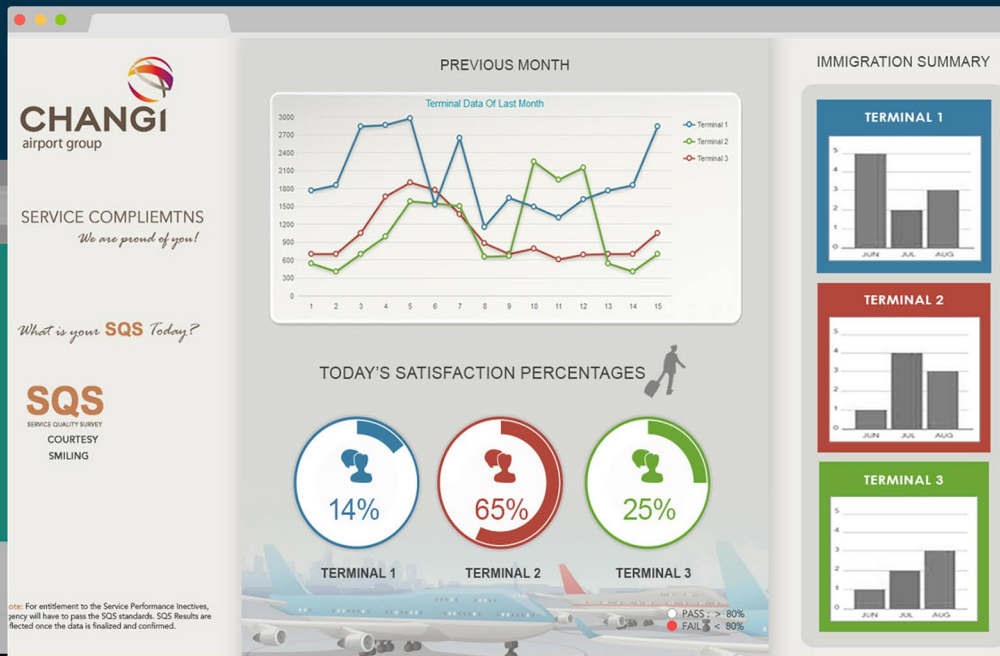

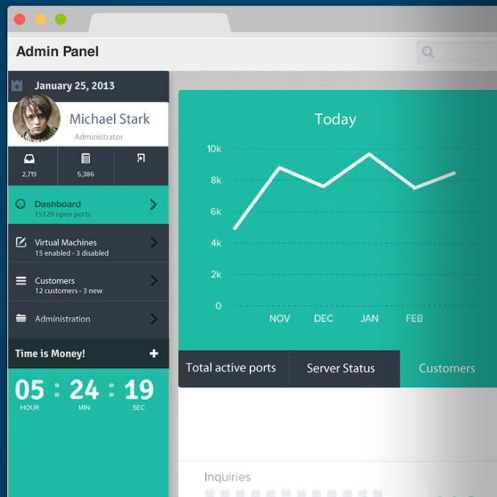

We ensure that you are one-up for the competition therefore we always use latest and state-of-the-art technology for your application implementation.

LAMP (PHP/MySQL)	
Frameworks	CodeIgniter (CI), Zend, Symfony, YII
Open Source	Joomla, Magento, Drupal, Wordpress
Ajax Frameworks	Prototype, JQuery, Yahoo UI Library
Databases	MySQL 5.x, PostgreSQL
Microsoft ASP.NET (C# & VB.NET)	
Web and desktop applications	ASP.NET 1.0/2.0/3.5/4.0 (C# / VB.NET) Web Services, ASP.NET (MVC3), AJAX, Windows Workflow Foundation, Silverlight, Sharepoint
Open Source	NHibernate, Log4Net, Spring.NET
Databases	SQL Server 2005/2008, Oracle 8i/9i/10g

We take the time to understand every facet of your business requirements and combine it with our solid cross-domain experience, technological expertise and an established development methodology to deliver as per your need and expectation. We are always open and accessible.

ABOUT Puremats®

We are manufacturing fully fitted auto mats to suit customer requirements. We are a local enterprise based in the US. Our products are manufactured exclusively for your vehicle.

Puremats is the core brand under Auto Mats Zone, all products are manufactured in the US using vinyl ester resin, it is an ultra premium material better than carpet or rubber, keeping the mats free of wet, stain, and damage, wear and tear. Puremats will work with you to create mats that well tailored to suit customer requirements.

Puremats would be ideal in enhancing the interior while adding a level of safety that is not found in carpet or rubber mats. The textured surface provides some additional security by helping to keep your feet from sliding around on the mat's surface, and keeps shape in any weather conditions, thus resist heel dents occurred in most of rubber mats.

Without the help of professional cleaning, you can save time and money to actualize self cleaning and to low maintenance, once the mats get dirty, stain, you just need to remove the mats from your vehicle simply and spray them with a hose, and then place them back in your vehicle when the mats are dry.

# TIMOTHY'S

**Timothy's Smooth Shave Gel** is designed to provide a close and soothing shave. Our proprietary formula is free of alcohol, soap and fragrance – ideal for sensitive skin. The transparent gel allows you to see where you are shaving to deliver a precise, clean shave. With lubricating skin conditioners, Timothy's markedly reduces shaving irritation.

## TIMOTHY'S STORY: The Evolution of a Superior Shave Gel

Growing up with sensitive skin, I realized the importance of a quality shave product at a young age. Enduring years of shave irritation, bumps and ingrown hairs, I was always on a quest for a product that wouldn't irritate my skin. My search was futile—until now.

Timothy's Smooth Shave Gel is a unique product that doesn't contain any soap, fragrance or defatting solvents found in most conventional creams, foams and shave gels. My shave gel fits the vision I've always had of a clear product so the contours of the face and neck could be easily seen, reducing the chance for nicks and cuts. The lubricating properties in Timothy's Smooth Shave Gel are also essential to ensure the razor blade glides effortlessly across the skin. Our superior lubricating skin conditioners adhere even to wet skin, keeping the gel in place for a smooth shave every time.

The alcohol-free formula of Timothy's Smooth Shave Gel actually improves your skin's moisture levels rather than drying it out. The result is soft, balanced, supple skin that's ready to face the day. All of this adds up to a breakthrough, innovative shave gel that I'm proud to share. After years of searching for a high-quality shaving product, it's finally in my hands. I hope you enjoy Timothy's Smooth Shave Gel as much as I do!

All the best -

Timothy J. Prineas

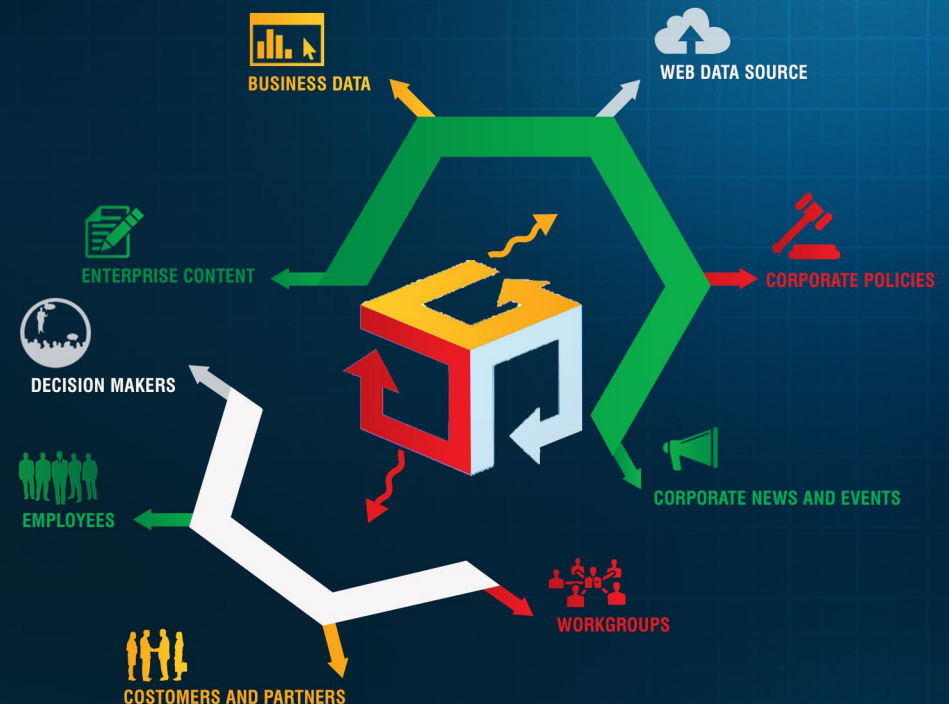

# Enterprise Portal Development

There are many challenges and associated risks while developing successful portals. A successful implementation comprises of a perfect combination of Domain Understanding, Technology Implementation, Architecture Design, Development and Integration services. We are experts in Enterprise portal development and no matter what challenges you face, we are here to optimize the user experience while adapting to your changing business requirements.
